*RT: For Decision Makers in Respiratory Care* connects respiratory care professionals to respiratory and critical care device manufacturers via social networks, mobile devices, unique websites, e-mail newsletters, and monthly print publications featuring respiratory care best practices that readers can use—right now. We are unique in the marketplace because we are the only independent brand that focuses exclusively on the respiratory care industry.
Mike Fratantoro brings several years of media experience to RT’s editorial leadership. His goal for the RT brand is to expand the magazine’s focus on digital/social media engagement to support its traditional media and improve dialogue between clinicians and product manufacturers. With the guidance of RT’s editorial advisory board, he and the RT staff work together to share the most vital, timely, and actionable information available to support respiratory care efforts.

One Major Change in 2014 is RT’s emphasis on using our digital media properties to deliver interesting and innovative content to our readers as quickly and efficiently as possible. As more and more of our 20,000+ monthly subscribers engage with our content through tablets, smartphones, and the Web, the opportunity for greater interaction between our readers and our advertisers is growing every day.

RT’s Editorial Advisory Board, which includes prominent academics, eminent pulmonologists, and expert hospital-based respiratory therapists, keeps us apprised of the latest developments in best practices in respiratory care.

“Respiratory and critical care professionals are dedicated to providing the greatest possible care to their patients. To accomplish this, they need to be aware of the latest research, the newest products, and the key issues that are driving the industry. That’s where RT Magazine comes in. Our goal is to provide the smart, interesting, and readily accessible information that ultimately helps RTs and their patients breathe easier.”
advertise with us

Brand yourself as a key industry provider within the respiratory care segment’s most trusted editorial source.

Connect with an audience of over 46,000 (and growing) decision makers... professionals who trust and share a great affinity for RT: For Decision Makers in Respiratory Care.

Boost your advertising investment productivity.
Readers rely on RT: For Decision Markets in Respiratory Care as a trustworthy source for industry intelligence. That's why so many successful businesses continue with RT: For Decision Markets in Respiratory Care as their long-term advertising partner.

Engage potential buyers through dynamic multimedia platforms.
Your customers, as we all do now, absorb information through various platforms and we help you capitalize on those latest information assimilation trends. As your marketing arm, RT: For Decision Makers in Respiratory Care takes your sales message and transforms it into a targeted, integrated marketing campaign. Year after year, RT: For Decision Makers in Respiratory Care is rated highest amongst competitors in reach, content and results.

We can increase your brand visibility, drive traffic to your site, offer lead generation, conduct market research, and/or help you educate the respiratory care market, both effectively and cost efficiently. Whatever your marketing objectives, RT: For Decision Makers in Respiratory Care offers multiple plans of attack to meet and even surpass them.

*Publisher’s own data August 2013

7 OUT OF 10 INDUSTRY PROFESSIONALS
who receive RT: For Decision Makers in Respiratory Care have taken action (visited an advertiser’s website, discussed an ad with someone, requested more vendor information, etc) after reading advertisements in RT: For Decision Makers in Respiratory Care.*

3 OUT OF 4 INDUSTRY PROFESSIONALS
who receive RT: For Decision Makers in Respiratory Care indicated they were responsible (either as an individual or as part of a group) for purchasing and/or recommending the purchase of equipment and services for their organization.*
the audience

lead generation programs

By delivering relevant and valuable content (either original or repurposing your internally developed content), we empower our readers. In turn, our audience willfully provides their contact and even buying intention data in order to access this key information. We deliver their registration information (including e-mail contacts and answers to polling questions) to you in the form of lead-retrieval. These programs are available daily, weekly, or monthly.
digital edition

Our digital editions offer enhanced features such as slide shows, podcasts, videos, and much more that make reading the latest issue truly interactive and unique.

program features

PRIMARY SPONSOR
- Single or multiple issue sponsorship of digital edition
- Leaderboard (728 x 90) on two separate e-blasts for each edition
- Left-hand page facing the digital edition front cover
- Traffic Driver promotional items on brand website and weekly e-newsletters
- Sponsorship recognition on digital edition promotion ad in print
$2500/issue

DIGITAL AD LINK
- Live link on ad and in Ad Index
$150 | $100/additional

BANNER AD
- Rotating Banner Ad that will appear above the digital edition (max 3)
$350/each

ENHANCED DIGITAL AD
- Substitute the print ad with one designed with the digital format in mind
- Place unique buttons and calls for action that will drive interaction with your ad
- Your ad can be linked to any URL (max 4)

MULTIMEDIA ADD-ONS
- Add Audio, Video, and Flash items to an Enhanced Digital Ad, or replace your ad completely with a flash version

ENHANCED DIGITAL AD SPREAD
- 2-page ad in digital edition

feature reports

Feature Reports provide an in-depth examination of technologies and trends shaping the current business environment. We assign an industry freelance editor to report on a specific topic. Analysis and editorial coverage on the topic is presented in a downloadable document and promoted through a turnkey marketing program. Feature Reports are great for branding, promoting the sponsor as a subject matter expert, generating leads, and provide great leave behinds for a client’s sales team or for use at trade shows.

This is an editorial product that is sponsored by your company. We provide you with a draft version of the report and will provide an opportunity to offer suggestions to clarify points or offer commentary to improve overall readability of the report.

program features

- Promotional traffic drivers across platforms
- Accessible on the website for 3 months
- Customized registration page
- Sponsorship recognition on report cover
- One full-page 4-color ad within the report
- Lead-retrieval options include daily, weekly, or monthly reporting

MATERIALS NEEDED

- Logo with URL link (eps or jpg format - 300 dpi)
- Up to three custom registration questions (optional)
- Title suggestion – we will review with editorial and refine as needed to optimize for SEO
- Three to five key bullet point themes that are relevant to title
- Point of contact for interview (name, phone, and email)
- Charts, figures, analyst reports, photos, etc. to provide context (optional)

$17,000 total | promoted for 3 months

Production time frame – 12 weeks from signed insertion date
webinars

Engage with your target market and position your company as a subject matter expert by providing information in an educational format. As a sponsor, you will get powerful brand recognition on all webinar promotions, as well as access to audience data that will help you plan future marketing initiatives. You can sponsor an editorial webinar, work with us to create something customized for your product message, or let us host your already recorded content. These topic-specific webinars bring together our editorial team with our leading industry experts for an in-depth product or market briefing.

program features

• Live or recorded, audio plus PowerPoint presentation
• Custom developed webinar will be moderated by Chief Editor (marketer provides PowerPoint)
• Customized registration page
• One full-page 4-color print ad
• Weekly e-newsletter promotion
• Weekly e-blasts promoting webinar
• Inclusion in monthly promotional e-blast after live event
• Lead-retrieval options include daily, weekly, or monthly reporting
• Archived on the website for 3 months

Webinar programs require a minimum of 3 months lead time for development, marketing, and registration. Event date will not be set earlier than 90 days from receiving the signed contract.
podcasts

Podcasts can be custom-developed for your message. Hosted by our chief editor, custom podcasts feature a one-on-one interview with industry leaders that provide insights into critical, current topics. These can be a one-time interview or part of a series that dissect industry developments. Podcast sponsors provide branding, association with delivery of intelligent content and embedded direct response opportunities. In addition, we can host your previously recorded podcasts on our site.

program features

• Single or multi sponsorship
• 15-second audio commercial
• Customized registration form to access podcast
• Lead-retrieval options include daily, weekly, or monthly reporting
• Archived on the website for 3 months
• Inclusion in monthly promotional e-blast

$2000/month | (3 months minimum)

Production time frame - 8 weeks from signed insertion date
video showcase

Tell your story, present your solution, or demonstrate your product with video. All packages include print, website, and e-newsletter promotions, and these videos are only accessible to registered site visitors.

program features

- Video URL link or embedded YouTube link hosted in Resource Center
- Inclusion in monthly promotional e-blast
- Promotional traffic drivers across platforms

$2000/month | (3 months minimum)

Production time frame - 4 weeks from signed insertion date
dedicated communities

Create a niche community dedicated exclusively to the category of your choice! With this community style platform, readers can log on to find out information on product news, new research, educational articles, and much more!

Content development
We facilitate the creation of a community where all content is consumer-oriented and industry specific. This could include RT: For Decision Makers in Respiratory Care editorial content, Q&A, government and regulators content, your branded content, blogs, industry experts, and interactive industry expert blogs.

Analytics
Reports containing the micro site ranking with the other sections of the website and daily site traffic for the micro site.

program features

- Link from site homepage
- Interactive link/ad with the monthly digital edition
- Promotional traffic drivers across platforms

MATERIALS NEEDED

- Logo (150 x 140) with URL link (eps or png format)
- Leaderboard (728 x 90) and bottom banner (940 x 60)

$5000/month  |  (6 months minimum)

Production time frame - 4 weeks from signed insertion date
technology & product guide sponsorship

Our editors construct a comparison matrix of each product category and house it on our site (which recognizes the sponsoring company). When a visitor proceeds to download the comparison matrix, they are required to register their complete contact information (including name, location, email), which is then delivered to you in a custom lead generation report.

program features
- Original content developed by editorial team
- Customized registration page
- Lead-retrieval options include daily, weekly, or monthly reporting
- Promotional traffic drivers across platforms

MATERIALS NEEDED
- Product image
- Up to three custom registration questions (optional)

$2000/month | (3 months minimum)

Production time frame - 4 weeks from signed insertion date
Our white paper download program offers a direct channel to place your abstracts and white papers in the hands of respiratory care professionals. We provide you with the complete contact registration leads for those professionals who download your paper, giving you the perfect opportunity to initiate follow up conversations.

**program features**

- Link from homepage
- Promotional traffic drivers across platforms
- Registration page with two custom questions
- E-newsletter promotion as news item
- Lead-retrieval options include daily, weekly, or monthly reporting
- Inclusion in monthly promotional e-blast

**MATERIALS NEEDED**

- Logo (150 x 140) with URL link (eps or png format)
- Completed white paper in PDF format
- Customized registration page

$2000/month | (3 months minimum)

**Production time frame - 2.5 weeks from signed insertion date**

**MAXIMIZING HUMIDIFICATION WHILE MINIMIZING CHALLENGES:**

A guide to delivering optimal humidification without sacrificing clinician efficiency

Jeri E. Eisenman, MBA, RRT, FAARC

**ABSTRACT:**

Providing proper humidification levels to invasively ventilated patients is of key importance. When the upper airway is bypassed during invasive mechanical ventilation, humidification is necessary to prevent hypothermia, disruption of the airway epithelium, bronchospasm, atelectasis, and airway obstruction. Many patients, particularly those for whom a heat and moisture exchanger (HME) is contraindicated or who require long-term ventilatory support, require the use of a heated humidification system to assure that their requirements are met. With heated humidification, however, comes the challenge of managing the condensation of water that occurs in the ventilator tubing between the humidifier and the patient. Whether using a conventional ventilator circuit, or one with heated wires, condensation will occur when using heated humidification, and the clinician must address the removal of condensate and any consequences that may result. This paper discusses recommendations related to the use of heated humidification with invasively ventilated patients, the challenges posed by condensation removal from the circuit, and a new product option for addressing these challenges.

**HUMIDIFICATION DURING MECHANICAL VENTILATION**

It is generally agreed that providing heat and humidification during invasive ventilation is mandatory and a prevailing standard of care worldwide. Two options are available for warming and humidifying the gases delivered to the mechanically ventilated patient: active humidification via a heated humidifier; and passive humidification via a heat and moisture exchanger (HME). HMEs cannot be used in all situations, and are specifically contraindicated in some patients and under some circumstances. Active humidification via a heated humidifier is then recommended to assure that adequate humidification is provided. Heated humidifiers actively increase the heat and water vapor content of inspired gas. These systems heat both a water reservoir and the ventilator gas coming into contact with the water as it moves from the ventilator to the patient. A maximum delivered gas temperature of 37°C and 100% RH (44mg H₂O/L) at the circuit Y-piece is recommended. If the temperature of the gas cools as it travels through the ventilator circuit, condensation can occur and liquid water will collect in the ventilator tubing. If using conventional, non-heated wire ventilator circuits, the amount of condensation can be significant due to a pronounced temperature drop between the humidifier and the patient. Therefore, heated-wire circuits have increased in popularity, as they maintain the gas temperature throughout the circuit, reducing the amount of condensation build up.

If heated-wire circuits are used, however, condensation will still occur. This can be a result of changing environmental conditions, selected gas temperature and/or heated-wire settings. Therefore, condensation management and an understanding of the clinical consequences of the available options are important considerations when caring for patients receiving active humidification during invasive ventilation.

**THE ROLE OF THE VENTILATOR CIRCUIT: CHALLENGES AND CONSEQUENCES**

Breathing circuits without heated wires (conventional circuits) have been used with heated humidifiers for decades, and are still available and used today. When conventional circuits are used, the temperature at the humidifier must often be several degrees higher than the desired patient temperature at the Y-piece to compensate for the gas cooling through the humidifier outlet and patient. As a result, two phenomena occur: the absolute humidity (AH) of the gas leaving the humidifier is higher; and the gas cools significantly between the humidifier and the patient. Both are exacerbated by cold environmental temperatures and lead to large amounts of condensation in the circuit that must be dealt with on an ongoing basis.

Heated wires are frequently used as a means of controlling the amount of condensation in the ventilator circuit. When heated-wire circuits are used, two things occur: 1) the heated humidifier is able to operate at a lower temperature because it does not have to compensate for significant heat loss between the humidifier and the patient; and 2) the amount of cooling that is allowed to occur once the gas leaves the humidifier and travels to the patient is reduced.
Trade shows are an important venue to get to know and connect with your target audience. You need to make sure you are getting the most out of your trade show investment, but how can you drive people to your booth and create a buzz before and during key shows? Our pre-event product highlights, daily event news, and post-event highlight e-newsletter programs provide your company maximum reach and impact—before, during, and after key industry events.

**program features**
- Sponsors will have prominent branding on all print, website, and e-newsletter promotions

**MATERIALS NEEDED**
- Because each sponsor's needs are specific, custom package pricing will be developed. Please contact our sales representative for details.

RT: For Decision Makers in Respiratory Care’s new Online Management Services Team gets your customers to see your message. At Sweet Spot Marketing, we know that a website without traffic is just art and copy.

- Your ad will come up in relevant search results THEY HAVE requested
- With our Precise Targeting and Budget Management, the end result is a higher return on investment (ROI) for your advertising budget
- We will create your keywords
- We will create your ad
- We will drive customers where they want to go
- You only pay when people click through to your site
- We will show your ads to the thousands of potential clients proactively looking for your product or service
- An Inc 500 fastest growing company
- One of a SELECT FEW Google Certified Search Engine Marketing Companies

DID YOU KNOW

In 2013, our clients’ ads will be seen over 100 million times, and we drive more than 1 million visits to their sites.
